

Qatar National Facility Services (QNFS) receive Certifications on OHSAS 18001 and ISO 14001 from TUV SUD Middle East LLC.

Qatar National Facility Services (QNFS) brings together the resources of two companies with more than 85 years of combined experience in the operations and maintenance and modifications industry. Based in Doha, QNFS has local infrastructure including offices, warehouses and workshops in Ras Laffan, Al Wakrah, Mesaieed, Dukhan and Salwa. Through the collective strengths, skills, experiences and local knowledge of the partners, QNFS supports customers by providing value-based asset-centric services including operational readiness (pre-commissioning & commissioning) training and development and competency assurance, maintenance, brownfield engineering, plant changes/modifications and small capital construction services and logistics.

Last year QNFS received the Quality Management Certification ISO 9001:2008 which is used by over one million companies and organizations around the world. The standard is designed to help ensure quality and regulatory requirements, related to an organization's services or products, are met while striving to continually improve customer satisfaction through quality performance.

Today, the company announced it has been awarded certifications for OHSAS 18001 and ISO14001.

OHSAS 18001 certification is designed to identify and control occupational

health and safety risks, as well as improve the company's overall performance.

ISO 14001:2004 the international standard for Environmental Management Systems (EMS) is designed to identify and systematically reduce any harmful effects it may have on the environment.

On this occasion Deon Otto, General Manager of QNFS commented "Only a few companies in the world have ever completed a triple audit and received all certifications in its first year of evaluation. Certification in all

three areas becomes the foundation for the company's future financial success supporting the company's sustainability strategy and enhancing our customer's confidence in their decision to partner with QNFS." He also congratulated the entire Project team, senior management and all staff members on in this significant achievement.

QNFS is committed to building a sustainable presence in the region by bringing value to our customers, employees, and the communities within QNFS business.
